Semester	7
Subject	DevOps Lab
Subject-Incharge	Dr.Snehal Andhare
Student Name	Mayuresh Sawant
Roll No	23102A0029

Assignment No	3
Assignment Title	Perform Jenkins CI/CD Pipeline
Code	

```
pipeline {
    agent any
    tools {
        nodejs 'node-lts'
    }
    parameters {
        choice(name: 'ENVIRONMENT',
        choices: ['staging', 'production'],
        description: 'Target Environment')
    }
    stages {
        stage('Checkout'){
            steps{
                checkout scm
            }
```

```
        }
        stage('Build'){
            steps{
                sh 'cd backend && npm ci'
                sh 'cd frontend && npm ci'
            }
        }
        stage('Package'){
            steps{
                sh 'cd backend && npm run build'
                sh 'cd frontend && npm run build'
            }
        }
        stage('Deploy') {
            steps {
                echo "Deploying to $(params.ENVIRONMENT)"
                sh 'mkdir -p /opt/homebrew/var/www/ngo-frontend'
                sh 'cp -r frontend/dist/*
/opt/homebrew/var/www/ngo-frontend'
                sh 'cp nginx/nginx.conf
/opt/homebrew/etc/nginx/nginx.conf'
                sh 'brew services restart nginx'
            }
        }
    }
}
```
